## YOUR ONE-SOURCE SOLUTION.

**SPS Dealer Source** partners with dealerships to consolidate products and services into easy to manage, single point of contact solutions that are unique and customized. The Dealer Source goal is to reduce dealerships' total cost of operations and increase profit margins through bundled services and unparalleled customer attention.

Through the industrial division, SPS Dealer Source integrates components such as bulk fluids, environmental services and parts cleaning technologies. Services such as delivering detail, reconditioning/body shop supplies, showroom/promotional items and office business forms are just a fraction of Dealer Source's total offering. Dealer Source is undeniably a dealership's one-source solution.

## HOW CAN WE HELP?

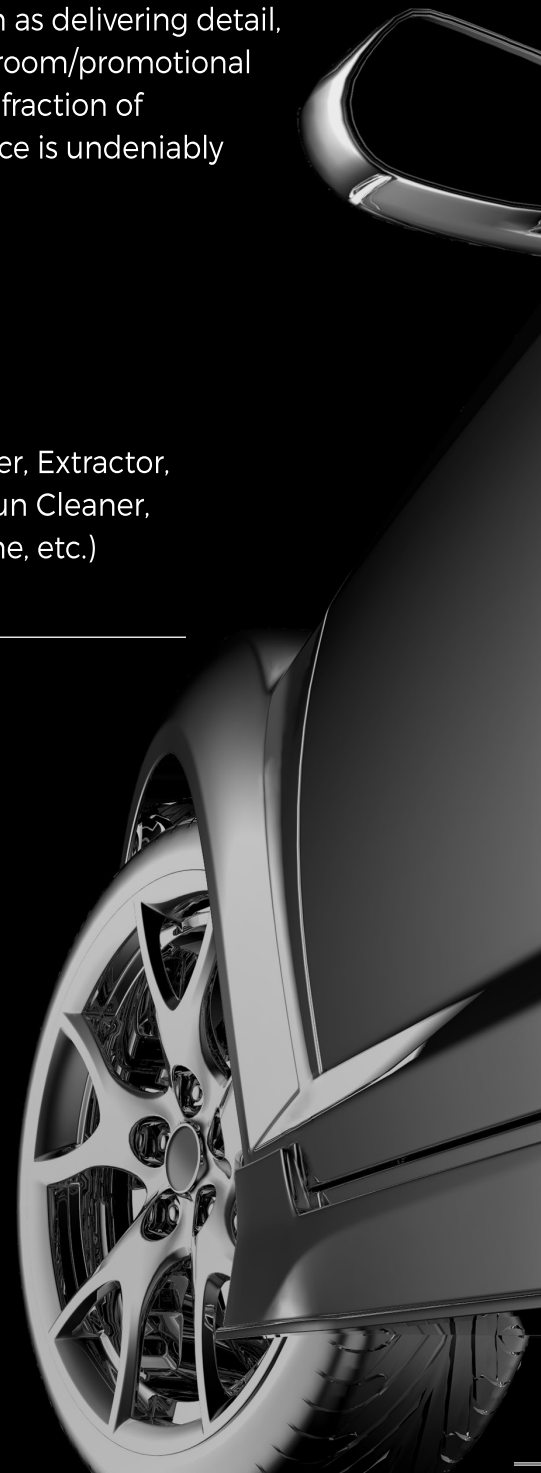

- Forms / Documents / Custom Printing
- Sales Aids
- Custom Promotional Items
- Reconditioning Products
- Antifreeze
- Washer Fluid
- Equipment (Parts Washer, Extractor, Buffer, Polisher, Paint Gun Cleaner, Tornador, Ozone Machine, etc.)
- Waste Removal

A DIVISION OF STRATEGIC ALIGNED COMPANIES

**SPS Dealer Source**, formerly known as Coastal Dealer Supply, began in 1985 as a reconditioning supply company innovatively blending chemical products for auto appearance professionals. Over time, Coastal gained market recognition with sales tactics and expertise stemming from real world technical experience in detailing and reconditioning.

Through strategic initiatives, Coastal was integrated and aligned under single-ownership with Solvents & Petroleum Service, Inc. (SPS).

Coastal was renamed to SPS Dealer Source to capture the true potential and ability of being the one-source solution for dealerships. From that moment on, SPS Dealer Source has grown to offer several major brands including its own, manufactured locally in Syracuse, New York.
